Online-Bookers rewarded with summer offers and Boomerangs

Munich, 11/07/2007 – This summer, online-bookers can profit from current AppartementHotels.com and AppartementHolidays.com offers. Guests of both Internet portals can now book a two night's stay – instead of the usual minimum five night's stay – for €49, €69 or €89 per apartment and night. This lets them see the advantages of serviced apartments for themselves. Facilities in many cities and countries – including Dusseldorf, Frankfurt, Munich and Leipzig, or Slovakia, Hungary, Greece, Austria and Portugal are available for bookings.

Points from AppartementHotels.com:

In addition, the Internet portals AppartementHotels.com and AppartementHolidays.com became a new partner of the Germanwings Boomerang Club on June 1, 2007. This means that Boomerang Club members can now get 500 Boomerangs with every stay in one of our apartments.

The path to premium flights couldn't be easier: just register under www.germanwings.com/boomerangclub and immediately collect a starting balance of 1,000 Boomerangs. After joining the Boomerang Club, points can be collected with every flight booking or serviced apartment booking using the online platform; all Boomerangs are saved in the account.

Appartementhotels.com:
